

INTRODUCTION

The COVID-19 outbreak has caused a global health emergency and an economic slowdown impacting millions of small and medium-sized enterprises (SMEs) around the world, including the Pacific region. As tourism plays a major role in local Pacific economies, travel bans and restrictions on gatherings in particular are affecting businesses across this region.

Pacific Trade Invest (PTI) has commissioned Fifth Quadrant, an independent research agency, to run a regular survey to understand the ongoing effects of COVID-19 on the Pacific’s private sector. The eighth wave of PTI’s *Pacific Business Monitor* surveys includes responses gathered from 2 to 15 November 2020, from 171 businesses across the Pacific region, including 88 female-led/owned businesses.

This report includes data from the top three Pacific countries that provided responses, giving insight into the nuances between different Pacific countries and the effect COVID-19 is having on the private sector.

It is a long road ahead and through the regular PTI Pacific Business Monitor surveys, the objective is to provide governments, donors and stakeholders with valuable data on how businesses in the Pacific are coping.

ABOUT PACIFIC TRADE INVEST

The PTI Network is an agency of the Pacific Islands Forum Secretariat and is the Pacific’s leading trade and investment promotion agency.

With offices in Australia, China and New Zealand, the PTI Network develops and promotes trade and investment across international markets.

IMPACTS ON BUSINESSES IN THE PACIFIC

- The extent and severity of COVID-19 on Pacific businesses has decreased, with 85% (83% Niue) reporting a negative impact, the lowest since tracking began (down from 92% last wave).
- 75% (89% Niue) of businesses are confident that they will survive the COVID-19 crisis, which is the highest since tracking began (up from 67% last wave).
- The proportion of businesses expecting to return to business as usual in 2021 has increased to 34% (33% Niue) (up from 25% last wave).

CHALLENGES & SUPPORT NEEDED

- The top three challenges as a result of COVID-19 remain:
 - » Poor cashflow (90% Pacific, 94% Niue)
 - » Impact of closed international borders (89% Pacific, 86% Niue)
 - » Not knowing how long the crisis will last (88% Pacific, 86% Niue)
- The top three initiatives businesses require assistance with are:
 - » Financial support (54% Pacific, 47% Niue)
 - » Diversify business (40% Pacific, 42% Niue)
 - » Access to new markets (33% Pacific, 19% Niue)
- The top barrier for female-led businesses to action initiatives is a lack of finance / revenue / cash flow at 35%, compared to 21% in male-led businesses.

PERSONAL IMPACTS ON BUSINESS DECISION-MAKERS

- The negative toll on mental health has slightly improved, with 62% (61% Niue) reporting negative impacts on their mental health (down from 74% last wave).
- The proportion of businesses reporting a very negative impact on community wellbeing has also declined to 39% (32% Niue) (down from 49% last wave).

BARRIERS TO ACTIONING INITIATIVES

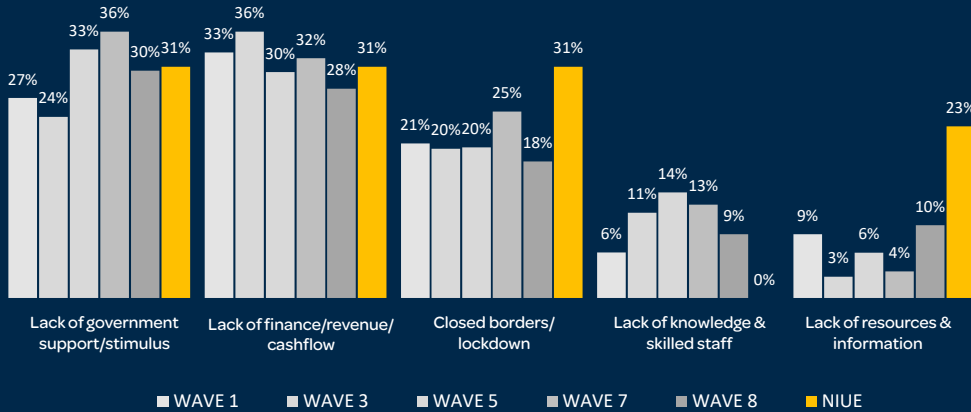

48% (36% Niue) reported barriers preventing them from actioning initiatives to support their business, a slight increase from last wave (41%).

"Access to centralised information and advisory to reach out to. It's difficult to know where to go and who to talk to."

- SME, Professional, Scientific & Technical Services, Fiji

"We can diversify and do everything possible to make things work, but until we have affordable air and sea freight which doesn't use all the profit, we are wasting our time. Airlines and shipping companies aren't the only ones that need to make a profit."

- SME, Manufacturing, Cook Islands

"The local market, have changed their shopping habits since COVID-19 - difficulties in procuring stock and ensure they reach Niue in time."

- SME, Retail Trade, Niue
